See the Private for more info. My name is Neil and I am trying to help out here by answering your questions. I am no way connected to this site or its creator. Thanks! seventyfour - Kingston - Hi, im a Professional Audio Engineer and Producer from England. I am a huge fan of Hybrid Instruments. However I have a question that I have been searching on but havent found anything so here goes. I am looking for a popular expanding Organ used in many different genres of music. Its not about the deep dark history of the world! I am referring to modern music (RnB, Pop, & etc.) and maybe even instruments and artists that have used it within popular tunes and albums. But I am really looking for an instrument that will stand out and be unique. If you have any info please share. it would be very helpful Thank you for your time please help - hi all, im looking for a sequencer made by um studio. the naming it is?? it has 6 buttons like normal sequencers 2 would work as note, 1 would be start something 1 would be stop 1 would be import and export. there are 3 kinds of steps in it: step counting (1,2,3,4,5) step step (1,2,3,4,5,6) step to step step (1,2,3,4,5,6) and 1,2,3,4,5,6 would be sequenced does anyone know this synthesizer???? Dave - 8Bit Circus - Hi, for anyone who's interested, I would like to put together a pack of my synth presets. The pack will be 20 in total and include some of the more interesting synths that I've used in recent times. I'll add more as people request them. One of the parameters will be the f678ea9f9e
