About This Game

Platform Golf is a 2D physics based arcade golf game.
It features a variety of levels with unique designs.

Life is like Platform Golf...

Sometimes you have to try a few times to reach your goal
Sometimes you take a breath to make a long shot
Sometimes time is of the essence and you have to make haste!
And sometimes you take a big leap of faith
Often the use of tactics can be helpful to get out of a tricky situation
Letting yourself fall can also be of use
And at some point you may take a step back for this one perfect shot
So you will break through in the end
How all these come together you can find out through the gameplay
So don't hesitate and start playing one of many challenging Levels!

- It is a relaxing golf game
- Hit the ball, reach the goal
 - 50 levels to solve.
 - 20 achievements to earn

"Delightful gameplay, simple but pleasant graphics. Great for a 40 minute coffee break :)"
"i played the demo and it really is a fun simple game for relaxing. it is perfect on the train or with multitasking parallel to movies or TV series"

A good game for fans of sophisticated platformers.. Versus: Battle of the Gladiator is a pretty cool action, fighting game. You play the roll of a gladiator and hack 'n' slash your way through your enemies in a variety of single and multipalyer missions. That being said it is a little bare bones at the moment. What it needs most is more players.. There are hundreds of similar casual games all over the Internet, for free. Also, I don't think this one is particularly interesting or entertaining.. Buy at a huge discount, and mainly if you remember "Passage 3" from the past and want to refresh the memories. The basic rule of the game is unique (this is not another match-3 game!) and it's been copied very rarely, if ever. However, the make of this game is very crude, the graphics is childish at best and the colors resemble 256 VGA palette. Nevertheless, there is a huge number of levels, three game modes and a number of options to choose from.. This game is well worth the dollar that it costs while on sale, and still worth the \$5 regularly. I have had a lot of on/off fun with this game since 2008 and after beating the story I felt I needed to write a review. If you enjoy games that have a challenge to them then you need to look no further.. If you aren't willing to buy stuff in game you will not be able to compete in this game it is a good game if u can throw your wallets at it for 30 to 50 secs battle it is about 2\$ to 4\$ depends on ur setups and builds...

This a war game and not dormant so if u are looking for free to play pass time avoid this game..

The game is visually appealing the new stuff u might unlock may become useless to u usable within 2 weeks of launch like new ships and all

sry...but that game is crap. where are the buildings?. this games ia very addicting and fun. Don't buy.

- Lots of controller lag
- Only refreshes at about 30fps.
- Joystick support is terrible (no analog support). best racing game I ever played.. TL;DR; Sub par quality and absurd pricing compared to the Grim Legend series.

As a newcomer to the genre, I just finished all 3 Grim Legends one after the other and was eager to play Kingmaker, it was disappointing to feel the big gap in quality between the 2 series.

- Story is not well crafted because the game, as others have pointed out, is short - the starting premise seemed promising but the development is far too short and simple for the asking price. (criminal!)
- Puzzle quality feels repetitive and not well crafted - hints to some puzzles are not intuitive, hidden objects aren't as "cleverly hidden" and once or twice, it felts like the named object doesn't match what you are actually required to find in-game. Strangely, despite the shortness of the game - and therefore minigames, I felt like the hidden objects asked for the same kind of items more often than Grim legends that actually had more minigames...

Definitely cannot recommend. I didn't set out to hate this game - as I still am eager to try out all Artifex Mundi listings, but there is a clear problem here when I would rather replay Grim Legends (whom I finished and uninstalled already) rather than play this.... A fun little old-school point-and-click adventure game.
